

4P Jingle Tree (Jingle, Moses, Dylan & Alexius on drums)

- › Sometimes the party may get started towards the end of an event, and that's when you need this 4P Jingle Tree setup to stir up the mood and get people to dance
- › This line-up includes a percussionist that really does make an impact because 3P Jingle Tree setup may actually be lacking in the department of the rhythms
- › This setup comes with a much bigger addition in terms of PA System because sub-woofers and speakers are added, and a dedicated soundman is also included
- › So, rest assured that the sound mix will be impressive and all that is needed are good songs to go with a good setup
- › Another added bonus of this 4P setup is that instead of Zale on keys, Moses may also sing some of his usual songs in the genre of jazz standards and other classic oldies
