

1P Violinist (Celia / Isaac)

- These two violinist options are basically musicians from the same string quartet group.
- Sometimes, wedding couples may like having a musician to escort their march-in(s) to make the agenda more interesting. And by adding this 1P violinist into the band setup, you may have Celia or Isaac to do so, without any further charges.
- And yes, they are going to perform with the band throughout the wedding/event.
- This addition of a violinist into the band line-up is a much rarer occasion as compared to having a saxophonist, but it can still fit in well, depending on the musician's improvisational skills and flexibility.
- If you enjoy classical music, it is highly likely that you love the sound of violins too.
